What We Do

MDDI Global manufactures an innovative range of sterile, single-use products designed to save dental staff time and money, whilst reducing risk.

With over 10 years' experience in the provision of affordable, quality solutions, MDDI is committed to enhancing the businesses of dental and healthcare professionals.

Why MDDI

Thousands of kits manufactured every day. All are certified as sterile, single-use and meeting required CE, FDA & TGA certification & ISO standards.

Warehouse locations around the globe to ensure fast and efficient delivery for you and your customers.

Customisable Procedure Pack options available. We tailor our products and packaging to your specific needs.

MDDI is a steadily expanding multi-national company with locations around the globe.

We take pride in our state of the art manufacturing facility - purpose built with future growth in mind, allowing us to meet the growing demand for sterile, single-use products.

STERILE, SINGLE-USE DIAGNOSTIC KITS

Our range of sterile, single-use diagnostic instruments gives you the opportunity to eliminate both cross-contamination risks and reprocessing costs from your surgery. There will be no need to stock expensive items to cover periods when a vital instrument is unavailable because it is still in the decontamination or re-sterilisation process.

(delivery time approx 2 days*)

Front Face Mirror

SI053ST-1

180 mirrors per dispenser box

Tweezers

SI081ST-1

200 tweezers per dispenser box

Premium Periodontal 3 Piece Examination Kit

- 1 x Tweezers
- 2 x Face Mask with Ear Loops
- 1 x Patient Bib with Ties

WHY SINGLE-USE?

Sterilisation is a necessary and accepted part of infection prevention standards and clinic workflow, so you don't always think about the financial impact of these procedures and protocols...

...is it time to think twice and use once?
Making the switch to sterile, single-use products could offer the following benefits:

EFFECTIVE

- Reduced risk of infection
- Reduced risk of staff injury
- Increased traceability standards
- Precision made, high quality and reliable
- Improved infection control

EFFICIENT

- Reduced reprocessing bottleneck
- Offers a solution if your autoclave breaks down
- No supply shortages
- Sharp every time
- Ready to go - pre-packaged and sterilised
- Handy benchtop dispenser
- Different configurations available for each dentist or procedure

ECONOMICAL

- Reduced labour costs
- Reduce the amount of cleaning and reprocessing
- Reduced sterilisation requirements
- Reduced capital expense
- Easier to identify costs per procedure

HIGH QUALITY ECONOMICAL CONVENIENT

"I was continually concerned about the backlog in the sterilisation room. We could never keep up with demand of the four surgeries with one autoclave and a limited physical space to process the dirty instruments. After doing a little research and questioning whether we should outlay a huge amount to purchase another autoclave, we decided to trial some newly released disposable instruments from MDDI. We were a little sceptical at first as this had never been done before.

All I can say is we have never looked back! The instruments were of such a high quality and the sterilisation room could now keep up with the demand. Our students managed to perform at total of 319 procedures in just 4 days using the MDDI instruments."

*Hope4Health Volunteer Dental Clinic
Coordinator. Michael Baker*

This innovative and efficient range has been designed to assist in reducing both cross-contamination risks and reprocessing costs from your surgery.

**DOES YOUR
STERILISATION UNIT
STRUGGLE TO KEEP
UP WITH DEMANDS?**

CE certified & TGA
registered.

STERILE, SINGLE-USE TREATMENT KITS

Our innovative and efficient range of sterile, single-use treatment kits is now available globally and taking the dental industry by storm.

The kits feature high quality, precision made instruments with sharp, stainless steel tips and ergonomic handles, arriving at your surgery sterile and ready for single-use with a 2.5 year expiry and tracking labels on every kit.

3 Piece Composite Restorative Kit

SI630ST-1

100 kits per dispenser box

- 1 x Flat Plastic DE
- 1 x Ball Burnisher DE
- 1 x Medium Spoon Excavator DE (1.8mm)

"From a time, organisation and environmental cleaning perspective, the disposable instruments are fantastic. Quicker changeovers mean more patients seen and less staff time utilised in the sterilisation bay, which is less handling of sharp instruments too."

DENTAL ASSISTANT - ORAL HEALTH OUTREACH, CAIRNS

2 Piece Restorative Mixing Kit

SI622ST-1

150 kits per dispenser box

- 1 x Spatula DE
- 1 x Dycal Applicator

Handy benchtop dispenser box.
Paper seal sleeve for better sterilisation.
Peelable trackable label on every kit.

5 Piece Amalgam Restorative Kit

SI650ST-1

60 kits per dispenser box

- 1 x Flat Plastic DE
- 1 x Ball Burnisher DE
- 1 x Medium Spoon Excavator DE (1.8mm)
- 1 x Carver DE
- 1 x Amalgam Plugger Large/Small

6 Piece Composite Restorative Kit

SI660ST-1

50 kits per dispenser box

- 1 x Flat Plastic DE
- 1 x Ball Burnisher DE
- 1 x Small Spoon Excavator DE (1.2mm)
- 1 x Medium Spoon Excavator DE (1.8mm)
- 1 x PFI49 Burnisher
- 1 x 1/2 Hollenback DE

6 Piece Comprehensive Restorative Kit

SI661ST-1

50 kits per dispenser box

- 1 x Flat Plastic DE
- 1 x Ball Burnisher DE
- 1 x Medium Spoon Excavator DE (1.8mm)
- 1 x Carver DE
- 1 x Ladmore Plugger DE
- 1 x Amalgam Plugger Large/Small

(delivery time approx 2 days*)

PROCEDURE PACKS

MDDI is an innovator in the supply of single use solutions and work in collaboration with our customers to ensure that all products developed are extensively researched and tested prior to launch.

Our kits contain various components, primarily featuring a selection of drapes of various sizes and absorbent qualities as well as an array of items from gowns and caps, through to suction tubing and X-ray gauze.

Using Procedure Packs can assist healthcare providers to:
reduce the time taken for each procedure, improve the quality of care, cut costs.
