Our Instruments are:

- Quick and easy to set up and use
- Prewrapped in a range of convenient kits and instruments
- Sterile at the point of use
- Convenient to dispose of in sharps container
- Reducing the risk of sharps injuries
- Sharp where needed, ensuring the highest quality of treatment for every procedure
- Implemented to significantly reduce the risk of cross-contamination
- GS1 compliant with removable tracking labels
- CE certified and TGA registered
- 5 year expiry from point of manufacture

MDDI Can Increase Revenue by:

- Minimise decontamination cycles per shift - reduces expenditure on consumables, test kits and utilities
- Putting the RDN back chairside to assist the dentist and patient
- Increasing the number of patients seen in each clinical session
- Improving clinical efficiencies allowing for longer treatment plans and procedures
- Improving the patient journey

Our *diagnostic instruments* are high quality, precision made instruments. The probes and London College Tweezers are manufactured from stainless steel and all of our handles are recyclable ABS plastic.

STERILE, SINGLE-USE RESTORATIVE KITS

Labour costs make up a significant portion of a clinic's annual budget with sterilisation of equipment a major contributor to the daily workload.

This is where our kits can make a difference.

Save time in the steri room

+ Save money on equipment and supplies

+ Improve infection control

Our comprehensive range of restorative kits are convenient, sharp and new every time.
